

Mr. Reed,

I am the Director of the new Engineering Technology program at Florida Gateway College in Lake City, FL (formally Lake City Community College). Our programs offers certificates in Lean Six Sigma Green Belt and Six Sigma Black Belt and a two year AS degree in ET with a Quality specialization. I am looking for an **experienced Black Belt** who would be interested in developing curriculum and becoming an **Adjunct Instructor**. We will be offering what we call hybrid courses, meaning approximately 50 – 60% classroom (one meeting a week) and the remainder being on-line. Our goal is to align our courses in such a matter that they would help prepare students to successfully pass the ASQ certification exam. Our campus is approximately 50 miles from Jacksonville. Please share this with your membership and I look forward to hearing from you.

Regards,

Bob Deckon
